Board A

BLUE ONYX

Blue onyx is one of the most valuable and special types of onyx colors. Like many other special colors, it originates almost exclusively in Iran.

Physical Sample: Board A #01

Power: controlling negative thoughts and encourage self-awareness

BRUSHED GRANITE (Natanz)

Leathered granite delivers a matte effect similar to that of honed granite, but instead of being smooth, it showcases its textured surface, full of dips, divots, and fissures. It also requires additional manufacturing in order to create the textured finish

Physical Sample: Board A #02

Power: abundance and protection

TURQUOISE GRANITE

Turquoise Granite is a spectacular stone that has intense rusts, and turquoise crystals with an iridescent quality that sparkles in all light. A special stone will provide a focal point in any room – especially kitchens and baths.

Physical Sample: Board A #03

Power: abundance and protection

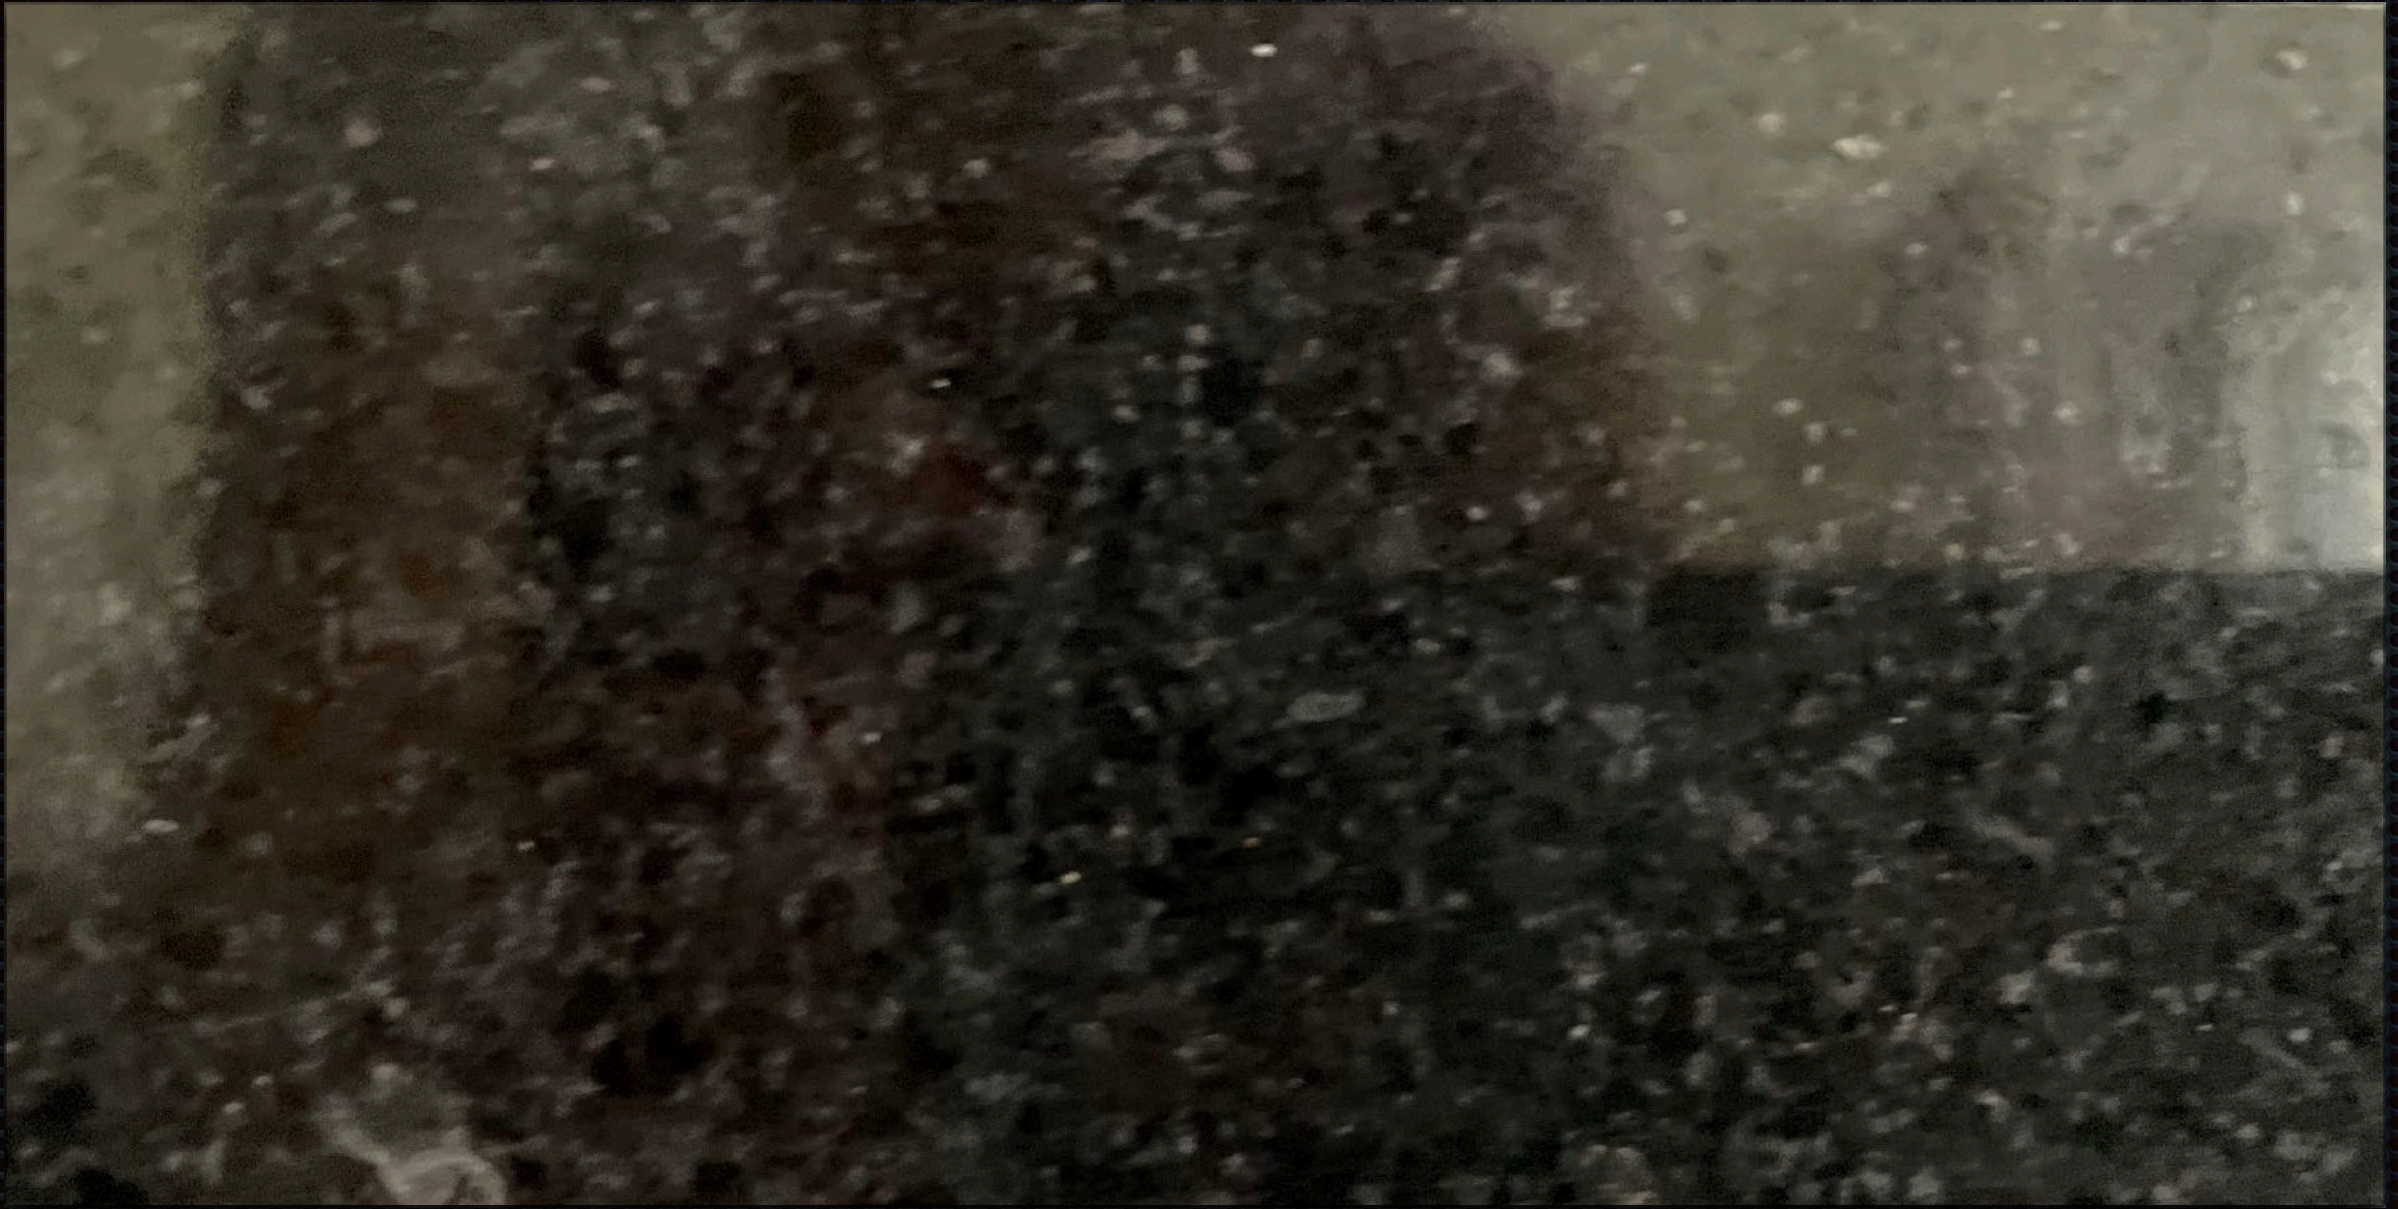

IVORY ONYX

Ivory Onyx is a semi-precious, translucent stone of a very light cream color that presents slightly toasted veins

Physical Sample: Board A #04

Power: strength, protection, and grounding

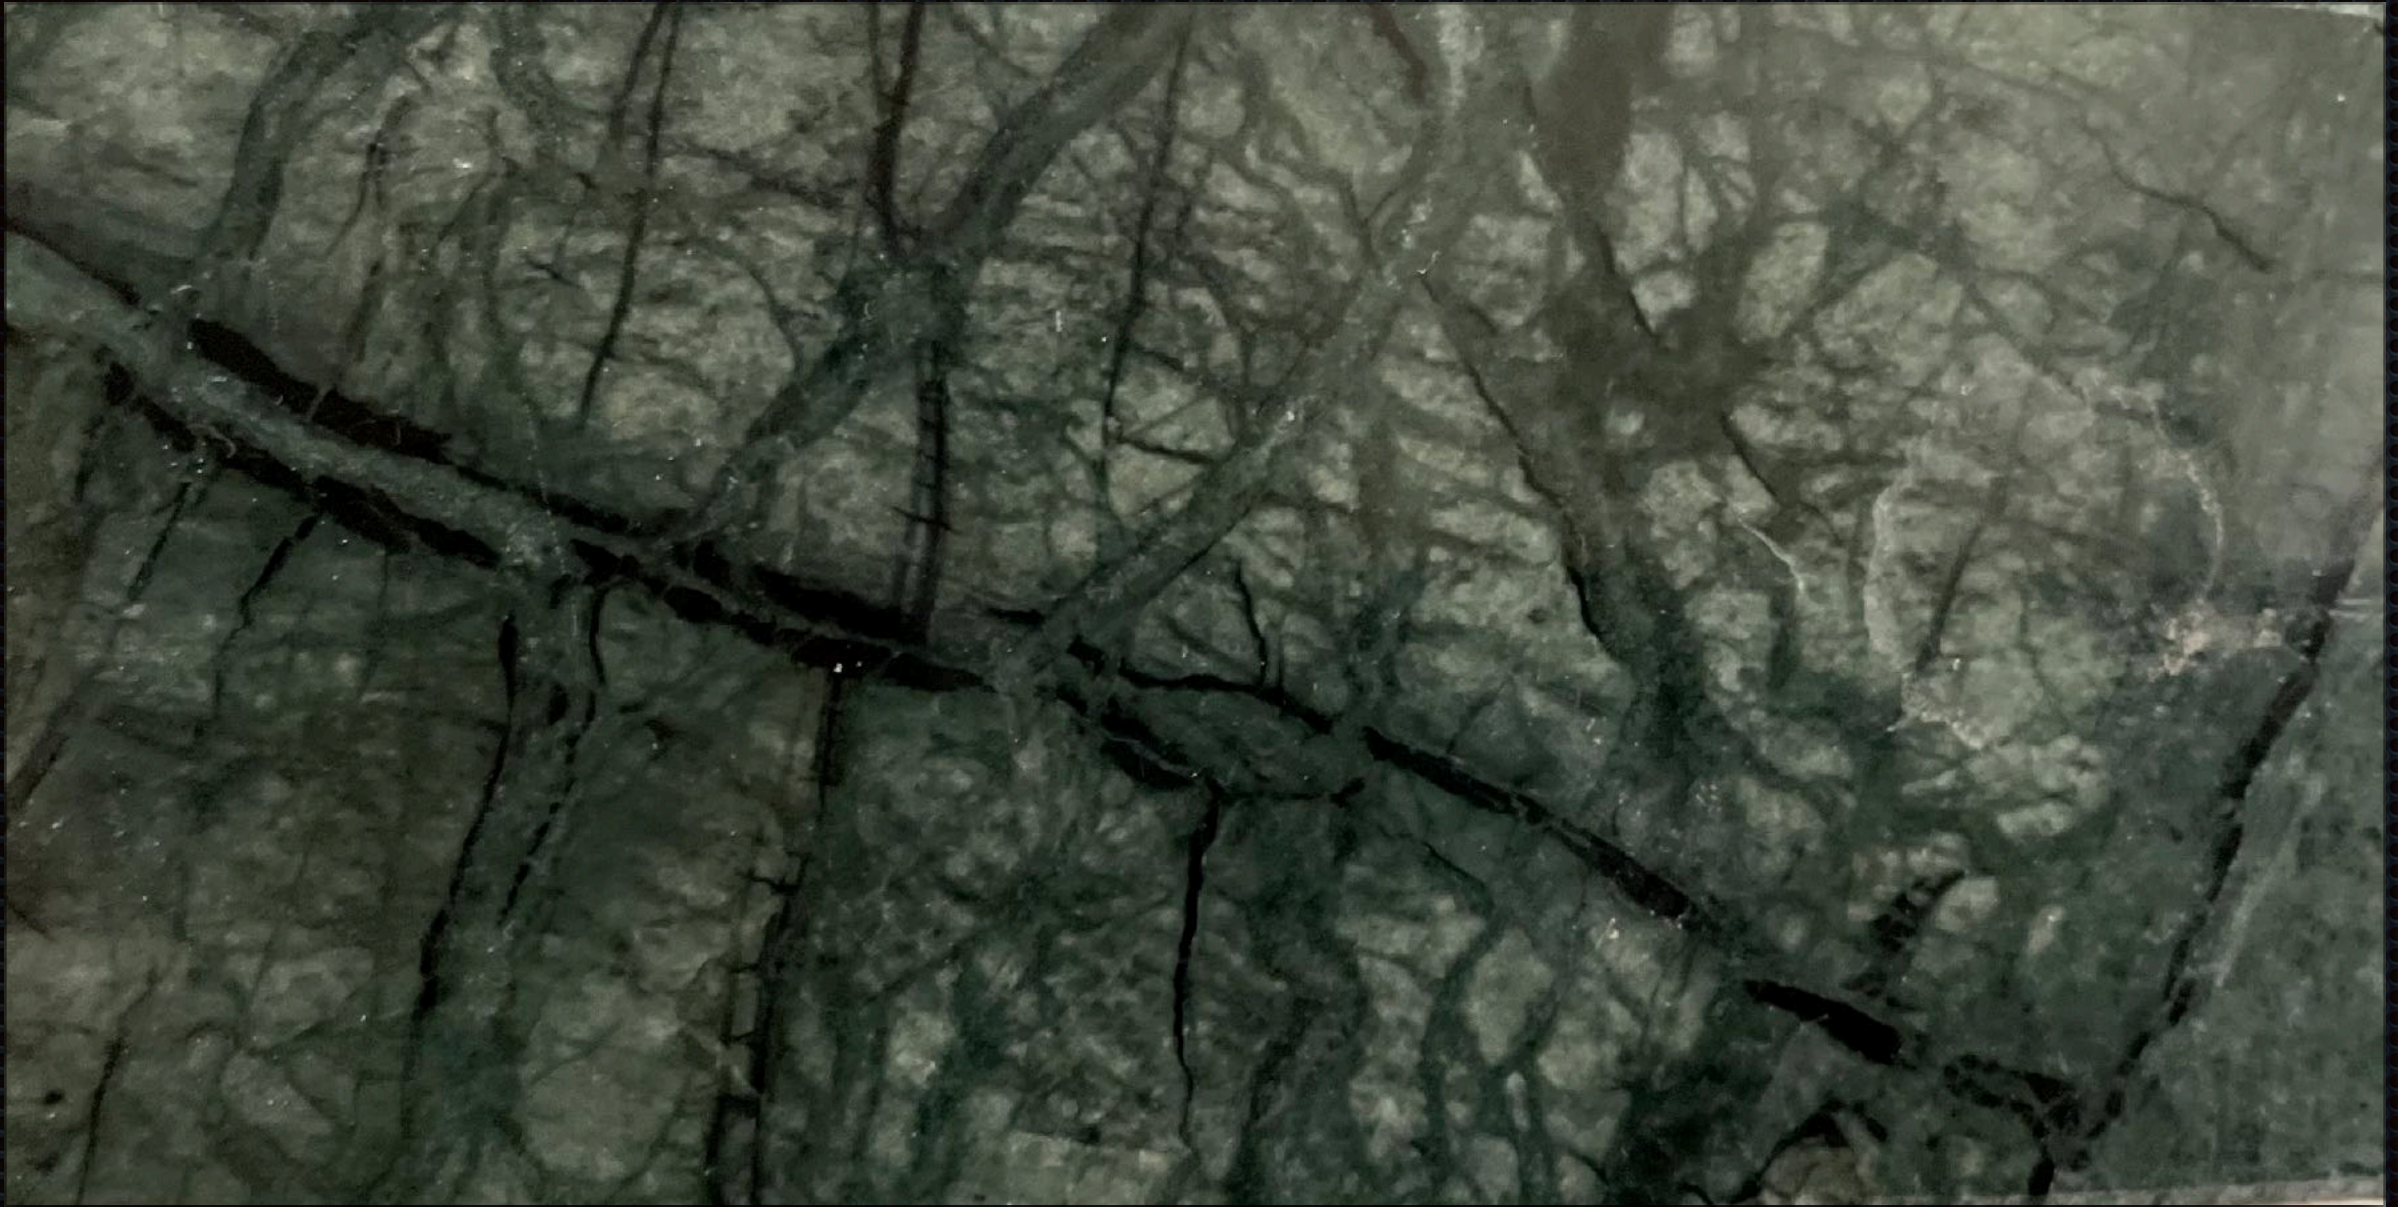

POLISHED GRANITE

a highly reflective surface, this finish will display the vibrancy of the granite's colors as well as the character of the stone

Physical Sample: Board A #05

Power: abundance and protection

GREEN BIRJAND GRANITE

Physical Sample: Board A #06

Power:

CREAMORANGE ONYX

Creamorange Onyx is a semi-precious, translucent stone of a very light cream and orange color that presents slightly toasted veins

Physical Sample: Board A #07

Power: strength, protection, and grounding

FLAMED BRUSH GRANITE

When granite is used in exterior living spaces, such as a patio or deck, a flamed finish serves as a beautiful, unique option. These slabs also work well in an outdoor kitchen, as flamed granite is well-suited to uncovered, exterior applications.

Physical Sample: Board A #08

Power: abundance and protection

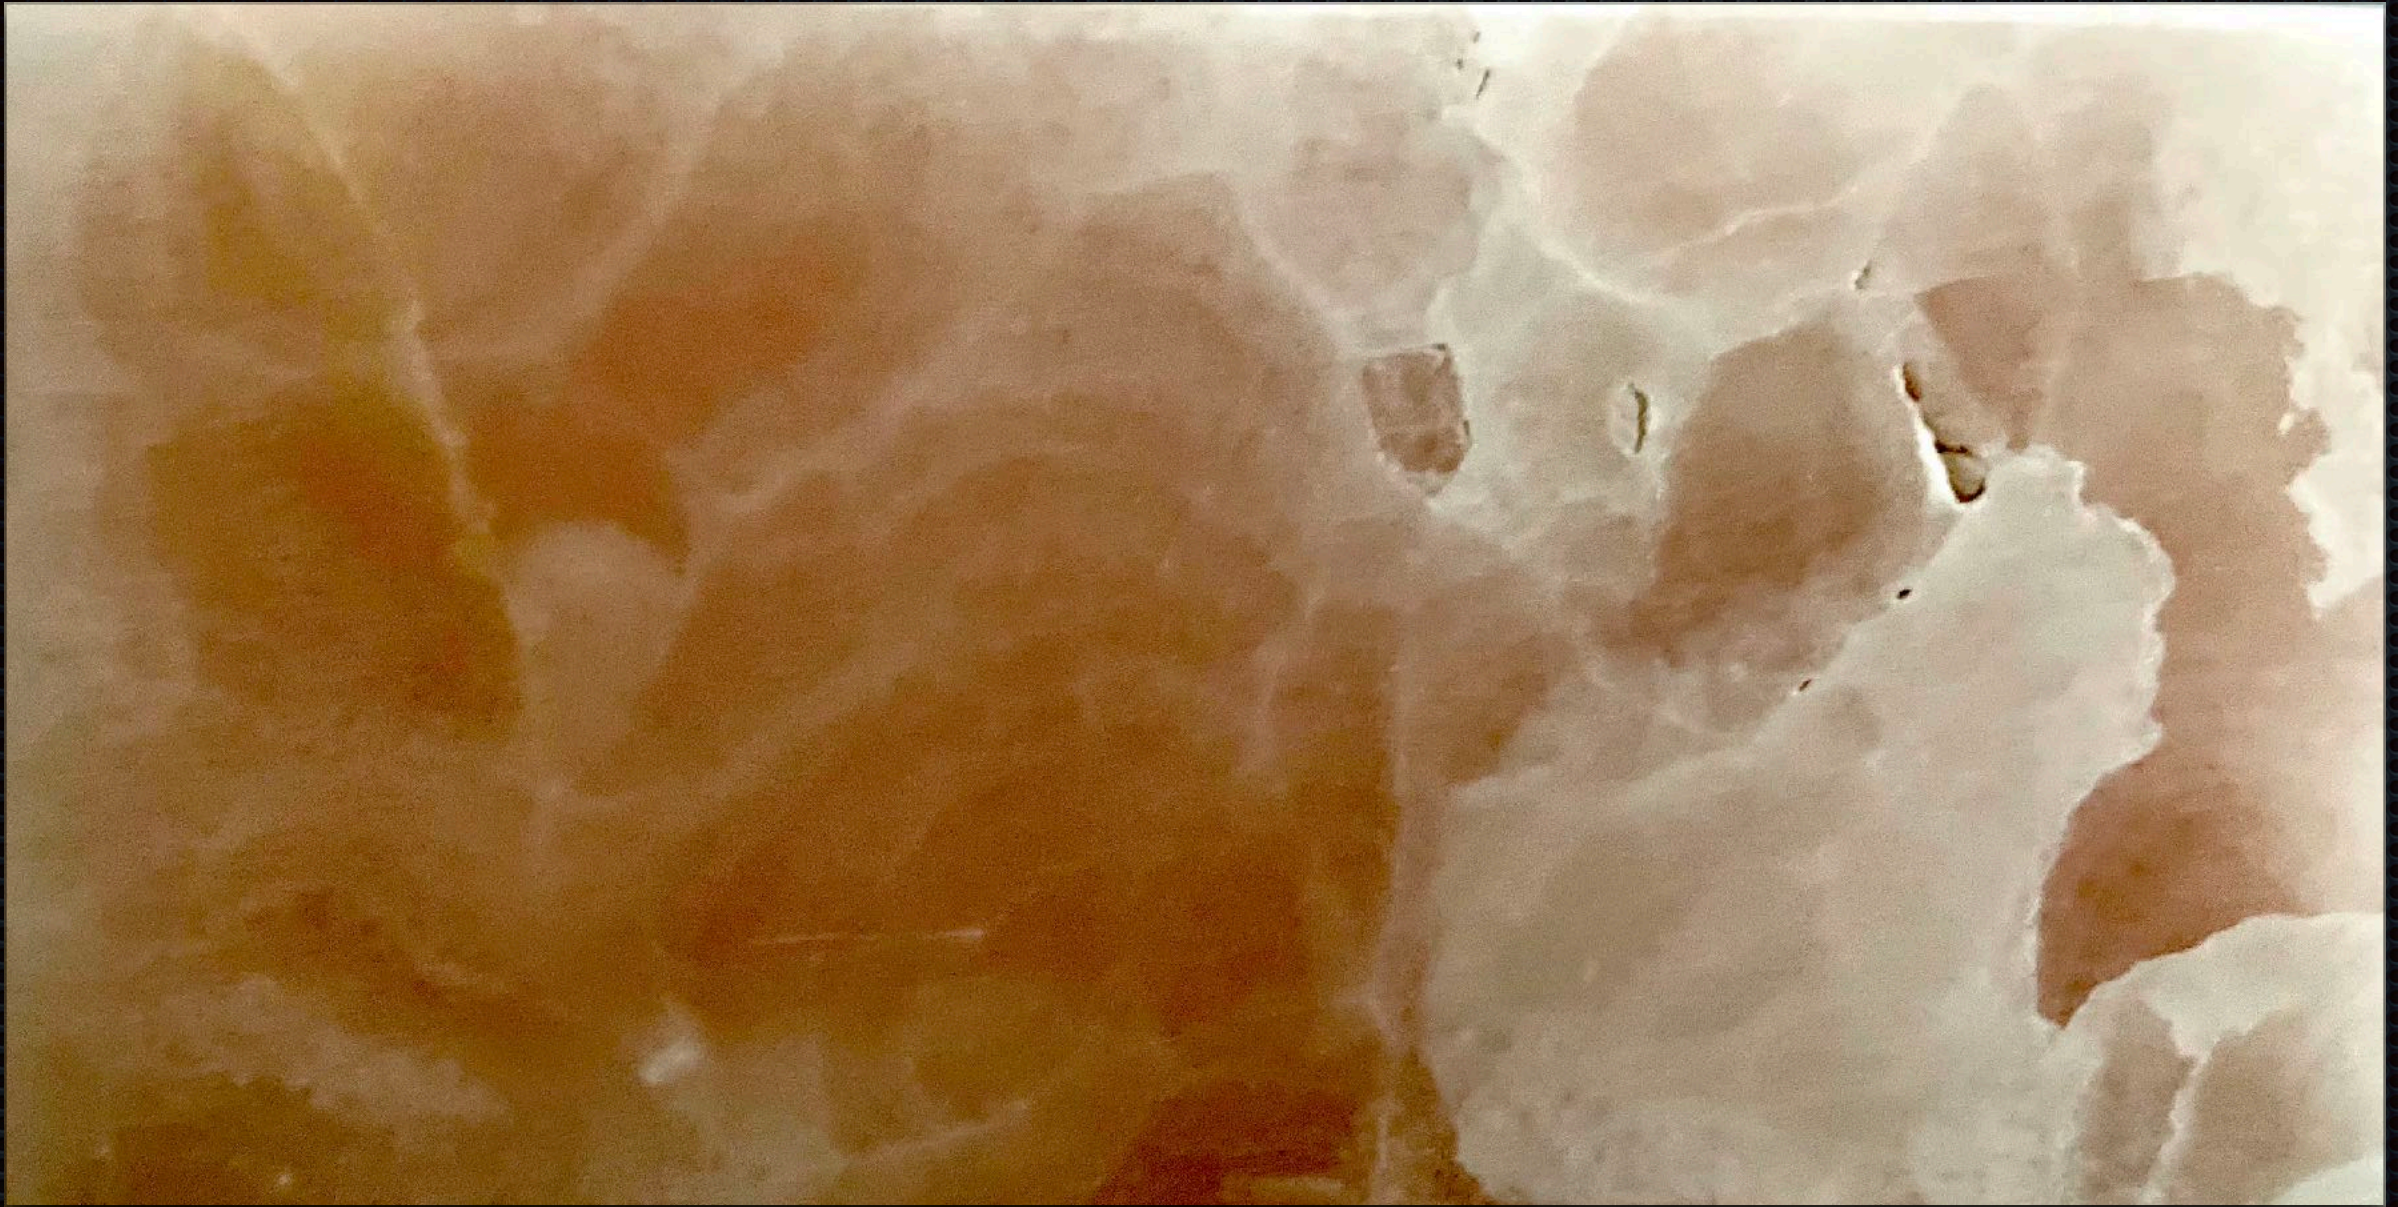

VERDE FANTASTIC GRANITE (Birjand)

A perfect Natural Stone for creating countertops in large and luminous kitchens and bathrooms.

Physical Sample: Board A #09

Power: abundance and protection

HONEY ONYX

The translucent surface of onyx can be backlit to illuminate a space with warm ambient lighting. The best part is that when light penetrates through the stone, it radiates a soft ethereal glow which enhances the exquisite colours and heavy veining patterns of the stone

Physical Sample: Board A #10

Power: strength, protection, and grounding

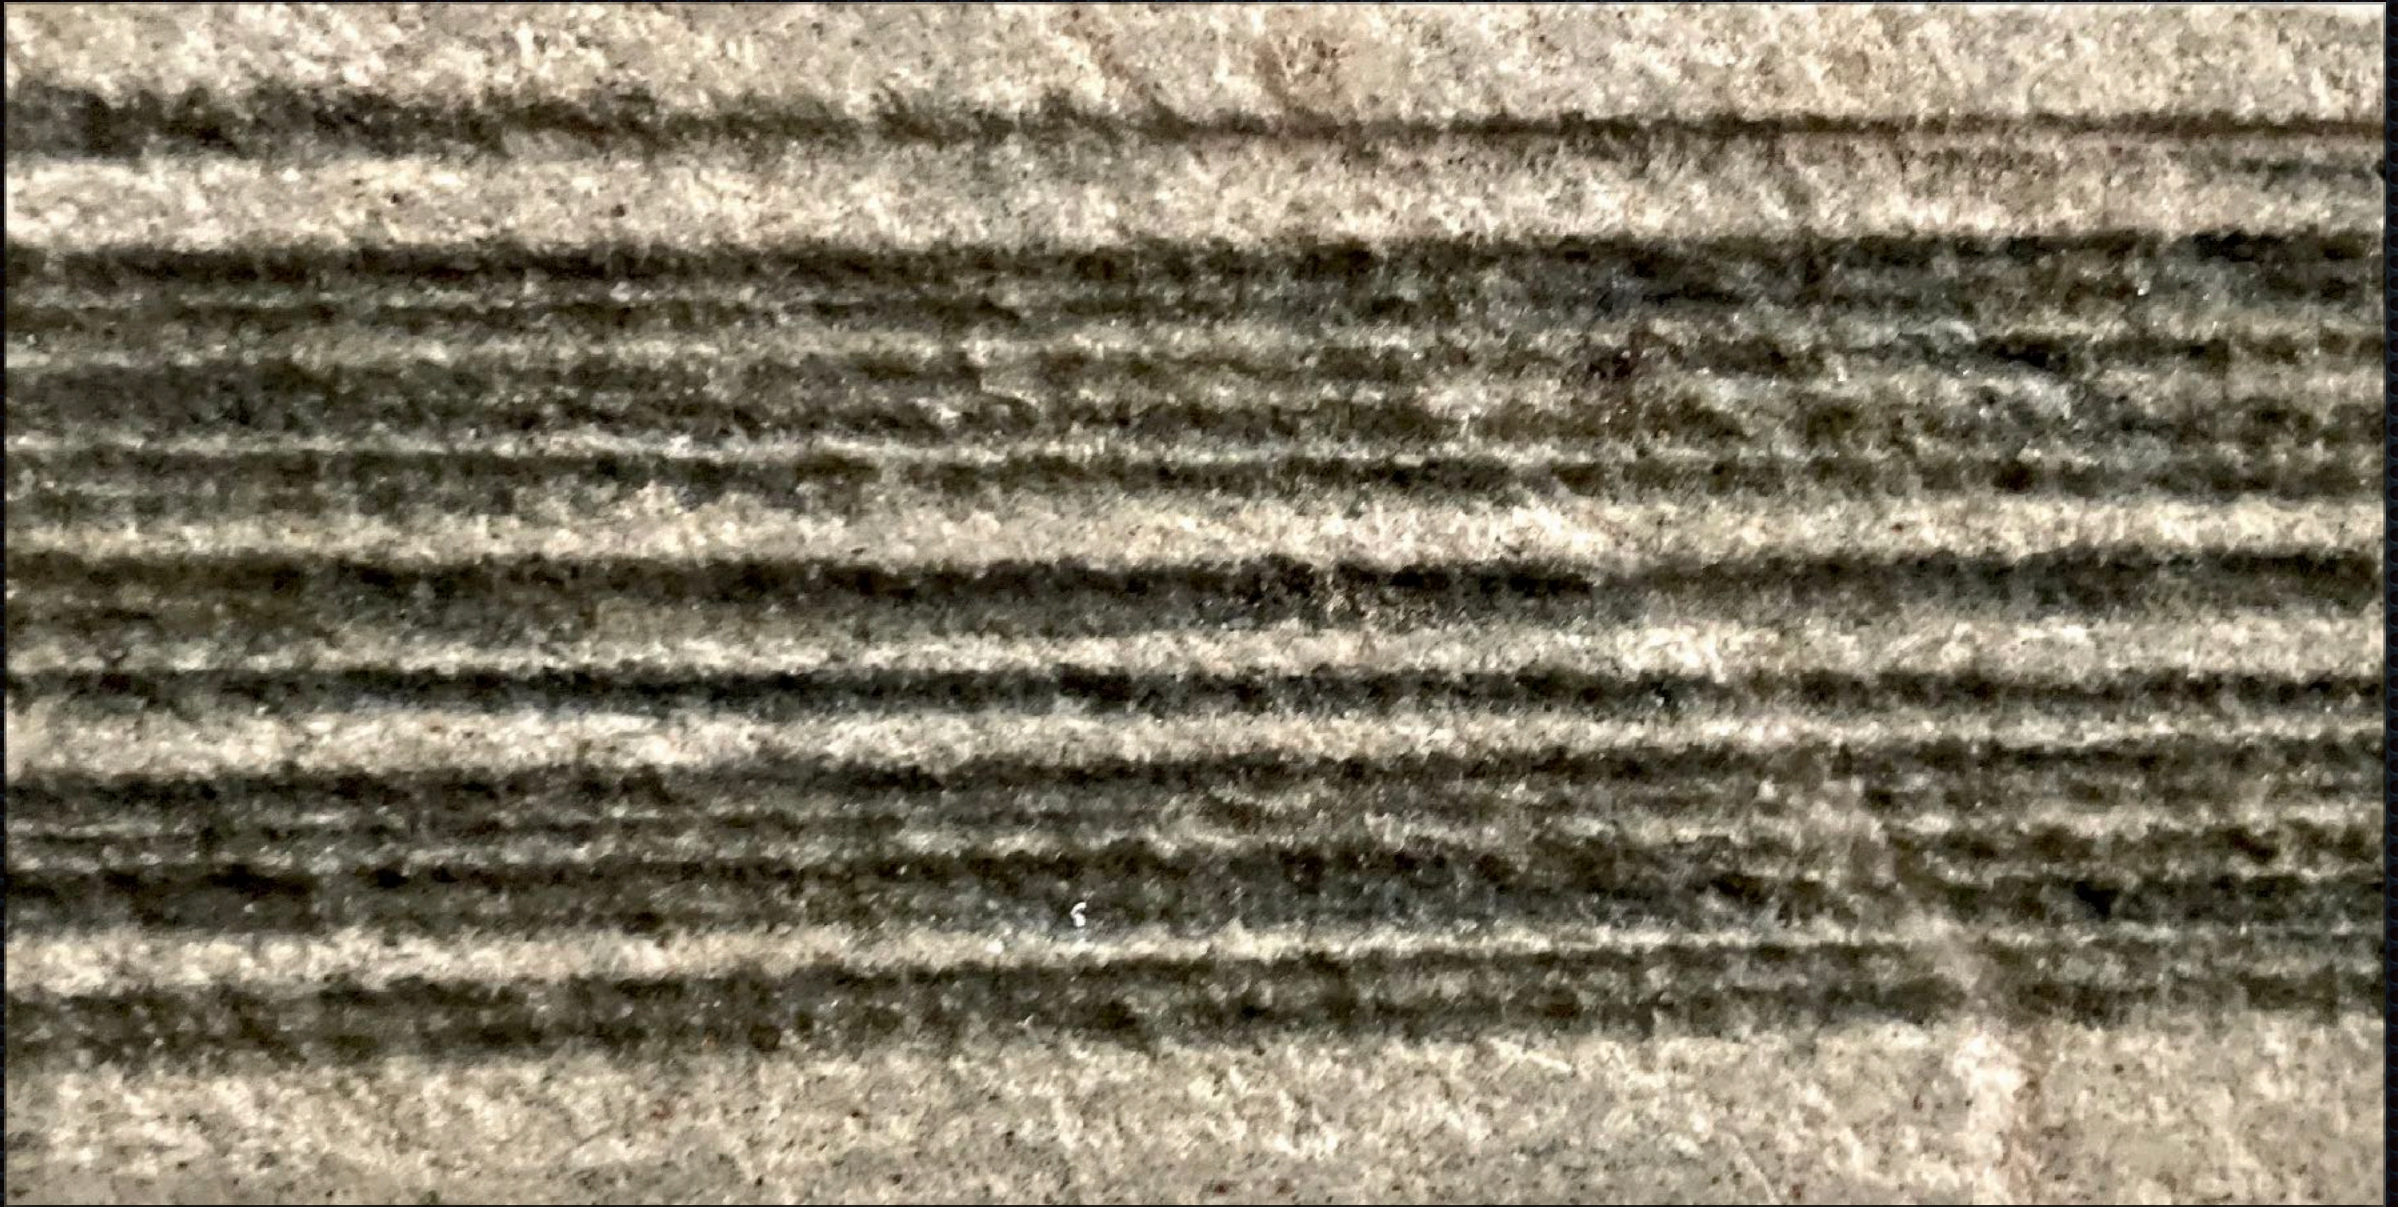

DELICATE GRANITE

A smart choice for kitchen countertops, accent addition to bathrooms and entrances.

Physical Sample: Board A #11
